

Featured Speakers

Seiichiro Kita, D.D.S.

Dr. Kita is a graduate of UCLA and has been in private practice in Torrance since 1993. In 1999 he obtained a license in Japan, then in 2000 opened a clinic in Tokyo Japan with a partner. He regularly travels to Tokyo once every 2 months to see patients. Dr. Kita was one of the first dentists in the Southern California area to adopt digital impressions into his practice.

Peter Hostert

Digital Oral Care Specialist 3M ESPE

Peter Hostert is a Digital Oral Care Specialist with 3M ESPE. He has been with 3M ESPE for past 12 years and has specialized in dental restorative materials. He has developed lectures and hands-on programs for dentist and dental assistants. Peter is an educational facilitator for 3M ESPE FDS programs and works with national speakers conducting these programs through local Seattle Study Clubs. Peter has lectured on various topics on 3M ESPE materials related to direct and indirect restorative dentistry.

Currently as a Digital Oral Care Specialist, Peter consults with dental labs and dental practices on strategies to implement the digital restorative CAD/CAM process. He has been involved in setting up several Authorized Lava Milling & Design Centers in Southern California.
